

The purpose designed Stratus aluminium roof lantern system is discreet yet stylish. Stratus allows light to flood into the home's interior, the ideal modern roof lantern solution, coupling sleek contemporary looks with truly outstanding performance.

Stratus aluminium roof lanterns provide excellent thermal performance while delivering the architectural refinement you'd expect of a high end lantern system.

Thermal break technology ensures that Stratus is warm in the winter and cool in the summer. Every element of the lantern has an ultra-low conductive element that separates the inner and outer aluminium skin, helping keep heat transfer down, and your heating bills low.

INNOVATIVE FULLY THERMALLY BROKEN LANTERN ROOF

Features and Benefits:

- Up to 65% more thermally efficient than conventional aluminium roof systems.
- Fixed at 20° pitch this allows the system to use the incredibly discreet purpose designed top caps and internal covers, without unsightly gaps to rafter ends.
- 66% smaller ridge than standard systems for beautiful aesthetics.
- Hard wearing aluminium exterior for a premium, architectural look.
- Quick and easy to install - less time on site means less disruption for homeowners.
